

# Four Season Access

Konjiam Resort (Korea)

The Konjiam Resort in Korea offers various holiday opportunities to guests throughout the year. In the four season resort, one membership card is valid for the whole season and gives access to different kinds of services: be it Winter Sports or Relaxing in the Spa, Dining, Events or Accomodation.

The Konjiam Resort offers the largest ski slopes in the Seoul area, 476 hotel rooms, a spa, golf course and other facilities. The resort is only forty minutes away from Seoul's Gangnam district, making it a great option for visitors from Seoul who do not have much time.

# Four Season Access

Konjiam Resort (Korea)

## Project Details

Coder	Coder-Unlimited
Access Points	30 Freemotion. Gate 'Full' and 6 Handhelds
Data Carriers	Keycard, Barcode ticket, Wristband

Skiing is very popular in Korea, therefore, overcrowded ski slopes are sometimes a problem. The Konjiam Resort has solved this by establishing Korea's first maximum occupancy rule. Consequently, skiers will no longer have to endure long waiting times at the ski lifts and therefore will have a safer, more enjoyable ski experience.

The Konjiam Resort has 11 double-width slopes for beginner and intermediate skiers and snowboarders. There are also three ski lifts that take skiers up to the peak of the slopes for a 1.8km length run down the mountain, the longest ski-run in the metropolitan area.

In addition to great ski facilities, the resort offers an ecological river and have introduced state-of-the-art spa services, perfect for relaxing your muscles after a long day on the slopes.

## Special Features

- SKIDATA Freemotion.Gates 'Full' plus SKIDATA Handheld.Gates for up-to-date access solution
- Automated ticket sales with 3rd party vending machines.
- Recognition of member card and season card holders via fingerprint
